DETAILED ACTION

1. Claims 1 through 3, 5-22, and 28 are pending. Applicants' claim to priority from foreign application SPAIN P200200753 filed April 1, 2002 is acknowledged.

Claim Rejections/Objections Withdrawn

2. The rejections of claims 1 through 3, 5 through 7, 12, 15 through 19, 21 and 28 under 102 (a) over Cai et al. is withdrawn since the definition of R₂ has been amended to exclude H atom. The rejections of claims 1 through 3, 5 through 7, 12, 15 through 19, 21 and 28 under 35 U.S.C. 102(b) over Filla et al. is withdrawn since the definition of R₂ has been amended to exclude H atom.

Claim Rejections/Objections Maintained/ New Grounds of Rejection

3. The rejection of claim 1 under 35 U.S.C. 112 2nd paragraph as being indefinite is maintained. The applicants' representative has agreed with the examiner's conclusion that the definition of p as 0 when L2 is a bond does not describe anything and creates a dangling valence (See Ex Parte Diamond (POBA 1959) 123 USPQ 167). Applicants' representative has argued a limitation not in the claims, namely that when L2 is a bond p is not 0.

This application contains claim 2 (when more than one of A, B, D, E is nitrogen) is drawn to an invention nonelected with traverse in the reply filed on April 14, 2008. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01. An objection to claim 2 is raised for this reason.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
4. Claim 1 recites R_2 to represent $L_3-(W_2)_p$, wherein L_3 can be a single bond and p can be equal to 0. Such a group represents an unassociated single bond (a single bond with nothing attached). Correction or clarification is required.

Claim Objections

5. Claims 3, 5-22 and 28 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
6. Claim 2 is objected to for being drawn to a non-elected invention.

Conclusions

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
